PATIENT RESPONSIBILITY

In the interest of patient care, Mercer Gastroenterology is consistently researching new techniques, tests and treatments. While our office strives to be informed regarding Insurance Coverage it is ultimately the Patient's responsibility to know your benefits, copays, and deductibles. Our office facilitates the necessary Authorizations which can be required for testing and procedures. However, there are some Labs, stool studies, radiology testing, and procedures which your individual plan may not cover regardless of an authorization. It is in the patient's best interest to contact your insurance plan to review coverage of these services prior to scheduling/submitting. Our office will provide the patient with Diagnosis and Procedure Codes upon Request.

One such test is the Cologuard Test. This particular test provides a prescreen opportunity for possible signs of Colon Cancer. Not every insurance plan will cover this test.

Mercer Gastroenterology offers this service to patients under the direction of our physicians. Neither the physician nor the staff will be able to predict whether your insurance plan will cover this test. Therefore, it is the PATIENT'S responsibility to contact the insurance company. You will need to consult with your plan as to your coverage/benefits for:

CPT Code: 81528

NPI: 1629407069

TAX ID: 463095174

MERCER GASTROENTEROLOGY WILL ACCEPT NO FINANCIAL RESPONSIBILITY FOR ANY SERVICES NOT COVERED BY A PATIENT'S INSURANCE PLAN.

I, _____, have read, agree to and fully understand the above statement.
